SKILLS

Kubernetes, AI basic, Docker, Django Rest Framework, Flutter, Linux Server, Firebase, Python, Express.js, AWS (Amazon Web Services), GCP (Google Cloud Platform), SQL Databases (MySQL, MariaDB, PostgreSQL), Secure Shell (SSH), Linux, AI Infrastructure.

EXPERIENCE

Universitas Sebelas Maret - Surakarta, Jawa Tengah, Indonesia -

Lecturer - Contract

February 2026 – June 2026

- Teaching university student
- Research in Computer Infrastructure, AI Infrastructure, Development Operation

Universitas Sebelas Maret - Surakarta, Jawa Tengah, Indonesia -

Lecturer - Contract

September 2025 – Desember 2025

- Teaching university student
- Research in Computer Infrastructure, AI Infrastructure, Development Operation

Rubythalib AI - Surakarta, Jawa Tengah, Indonesia - *Artificial*

Intelligence Engineer - full time

June 2025 – March 2026

- Develop AI Model, deployment AI system, and Setup AI infrastructure.

Widya Robotics - Sleman, Yogyakarta, Indonesia - *Artificial Intelligence*

Engineer - full time

July 2024 – July 2025

- Develop AI Model for vehicle detection, counting, and classification.

Bracketbrick Indonesia - Surakarta, Central Java, Indonesia - Backend Developer - part time

October 2023 - April 2024

- Maintain API Endpoint and add some API for Akadevo Apps, using Django Rest Framework
 - <https://akadevo.com/>
 - <https://play.google.com/store/apps/details?id=com.akadevo.wali>
 - <https://play.google.com/store/apps/details?id=com.akadevo.staff>

Bracketbrick Indonesia - Surakarta, Central Java, Indonesia - Backend Developer - full time

July 2023 - October 2023

- Make API Endpoint for Akadevo Apps, using Django Rest Framework
 - <https://akadevo.com/>
 - <https://play.google.com/store/apps/details?id=com.akadevo.wali>
 - <https://play.google.com/store/apps/details?id=com.akadevo.staff>

Universitas Muhammadiyah Surakarta (UMS) - Surakarta, Central Java, Indonesia - Information Technology Programmer - full time

October 2020 - September 2022

- Maintain and develop thesis information system (myskripsi.ums.ac.id)
- Develop API for MyData UMS apps (mydata.ums.ac.id)
- Web Scraping ums lecturers data in various website:
 - [Sinta V1](#)
 - [Sinta V3](#)
 - [Pddikti](#)
- Develop API Gateway with auth JWT (Json Web Token) and framework express gateway.
- Maintain docker clusters for some applications.

Widya Robotics - Sleman, Yogyakarta, Indonesia - Backend Engineer - part time

May 2021 – Desember 2022

- Develop API Analytic Dashboard MyNitro
- Make script for database migration from MyNitro V1 to V2 (ETL - Extract Transform Load)
- Develop API auto register device MyNitro
- Setup Sentry Device API MyNitro
- Develop POS (Point of Sale) module for Winitro apps
- Develop API plant disease detection apps for chili
- Deploy AI Service License Plate Recognition in Vultr
- Develop API for Face Recognition Services
- Make Deployment package for Face Recognition Services using Docker

Widya Robotics - Sleman, Yogyakarta, Indonesia - *AI Backend*

Engineer - part time

February 2021 - May 2021

- Deploy project Face Recognition service in AWS
- Dockerize Load Scanner Integrator

Phicos Group : Ideas for Better Value - Surakarta, Central Java, Indonesia - *Mobile Apps Developer - internship*

June 2020 - September 2020

- Develop some mobile applications using Flutter, from simple applications, to some modules for complex applications.

PT. BIPTEK Indonesia - Surakarta, Central Java, Indonesia - *Software Engineer - internship*

January 2019 - March 2019

- Develop an android application POS (Point of Sale) for module backup data, sharing data, and transaction.

EDUCATION

Sebelas Maret University - Surakarta, Central Java, - *Bachelor's degree (S1)*

August 2016 - April 2020

Informatics Department, Faculty of Mathematics and Nature Science.

Institute Technology Sepuluh Nopember - Surabaya, East Java, - *Master's degree (S2)*

August 2022 - September 2024

Informatics Department, Faculty of Intelligent Electrical and Informatics Technology.

PUBLICATION

Implementasi Algoritma Load Balancing PLBA Komputasi Grid pada Lab Environment Menggunakan PVM3
